Web Development Experience

General Assembly, Web Development Immersive
October 2018 - January 2019

Developed and deployed four completed full stacks web applications during a 12 week, 500hr web development bootcamp.

Projects:

National Park Finder # React Express Third-party APIs

My capstone project helps a user find what national parks to visit. This application takes advantage of React's state lifecycle by dynamically re-rendering the view based on the state's current park. The Express backend fetches data from the National Park Service API, and in future versions, a park's live weather and geolocation data.

Facebird # Express HTML CSS JS

Led a team of peers in creating this social media app. As the project lead, I created our code architecture, managed our git workflow and got all members involved in planning and code review.

Garden Manager # Ruby on Rails HTML CSS JS

A full stack web app where users can manage their home garden and receive plant care reminders. Client makes AJAX calls to a custom Rails backend and formats incoming data with Handlebars and jQuery.

Tic-Tac-Toe # HTML CSS JS

A classic game that scales to a user selected board size using jQuery DOM manipulation and dynamic game logic.
CRUDs game moves and user info with AJAX calls to a pre-built API.

Filmmaking Experience

Between May 2015 and October 2018 I worked as an editor and assistant editor in documentary film, corporate video, and network TV.

As an assistant editor I was responsible for media management, project organization, quality control, and discovering new techniques and technologies to make the editor's life easier.

As an editor, it was my job to find the story in the material I was given. Whether crafting a feature film or 30 second highlight, I needed to create a visually and emotionally compelling story.

Developer Skills

JavaScript	React
Ruby on Rails	HTML
Express	CSS
Mongoose	Sass
Node	Handlebars
MongoDB	AJAX
PostgreSQL	Bootstrap

Filmmaking Skills

AVID	Videography
Adobe CC	Photography
Resolve	
Archival Research	Grading

Hobbies

Analog Photography
Piano, Keyboards, songwriting
Hiking & Camping
Cooking
Building a tiny house
CNC Router

Education

B.S. in Film & Television
Boston University (2015)

Dad and Me Editor Feature Documentary (Providence, RI) May 2018 - October 2018	Boston Sports Tonight Editor NBC Sports Boston Show (Burlington, MA) October 2017 - October 2018	Shot in the Dark (FOX) Assistant Editor Feature Documentary (New York, NY) May - October, 2017	Get Me Roger Stone (Netflix) Assistant Editor Feature Documentary (New York, NY) February 2016 - March 2017
